

(Excerpts from past newsletters to inform members of the rich history of our club as it moves towards its 30th Anniversary in 2025.)

Vol. 1 Number 6 July 1995

President's Report, Mike Clevenger

Our monthly meeting on June 5th featured Bill Burden who presented an excellent slide show and talk on float tubing in the Sierras. Bill described in detail the lakes, flies and techniques so you can catch fish ... something near and dear to our hearts.

At this meeting we introduced a beginner/intermediate information table. This table manned by Patrick McAvoy and Matt Anderson, showed a wide variety of fishing gear. Both Patrick and Matt answered a wide variety of equipment questions. Next month we will have a different subject at this table and we hope it will help all in being better fly fishers.

We have two new board members, Andy Lee, 1996 Annual Fundraiser Chairperson and Matt Anderson, Publicity. We are currently soliciting members to fill Board positions of Programs, Historian, Corresponding Secretary, and Vice-President. We have a great group on the Board so raise your hand and join us.

Upcoming Events

Thursday, July 13 – Fly Tying

**July 15th – Tamarask removal project – Indian
and Lower Mono Creeks**

July 26th – Board Meeting, 7-9pm (Clevengers)
